

Reversed Phase SPE

VertiPak™ C18-LL (Low Load)

- VertiPak™ C18-LL SPE is non-polar, hydrophobic sorbent, manufactured using a trifunctional silane and endcapped to reduce the polar secondary interactions associated with surface silanol groups.
- Low carbon loading of 6% offers unique selectivities over standard C18.
- Typical applications includes for polar analytes extraction from environmental matrices.
- Tube format is available in 7 tube sizes.
- Cartridge format is available in 300mg, 600mg and 900mg size.
- Tubes or cartridges are packaged in zip sealing bag protective from moisture and light.
- Includes Certificate of Analysis
